SUMMARY

I am a junior Front-End developer with a working experience in multiple programming languages including, Java, C++, Python, Ansible, Html, CSS, JavaScript, to name a few. Extensive knowledge in object-oriented programming. I am a highly motivated individual that is eager to continue learning and developing my technical skill set. I am passionate about helping customers develop scalable applications and working as a technical leader alongside customer business, development and infrastructure teams. I am interested in a position that would allow me to work on a variety of projects that will allow me to utilize my creativity in problem solving.
